Experimental Gerontology

VOLUME 34

Number 1

The 1997 Nathan W. Shock Award Lecture

S. M. Jazwinski — 1 Longevity, genes, and aging: A view provided by a genetic model system

Reviews

K. Hirokawa — 7 Age-related changes of signal transduction in T cells

C. Schöneich — 19 Reactive oxygen species and biological aging: A mechanistic approach

Original Papers

G. A. McFarland and R. Holliday — 35 Further evidence for the rejuvenating effects of the dipeptide L-carnosine on cultured human diploid fibroblasts

P. Caprari, Scuteri, A. M. Salvati, C. Bauco, A. Cantafora, R. Masella, D. Modesti, A. Tarzia and V. Marigliano — 47 Aging and red blood cell membrane: A study of centenarians

T. G. Sourlingas, M. Steger, B. Grubeck-Loebenstein, D. S. Tsapali, and K. E. Sekeri-Pataryas — 59 T-lymphocyte long-term cultures have a constant histone variant pattern during aging

G. Pawelec, R. Müller, A. Rehbein, K. Hähnel, and B. L. Ziegler — 69 Finite lifespans of T cell clones derived from CD34$^+$ human haematopoietic stem cells in vitro

I. M. Rea, S. E. McNerlan and H. D. Alexander — 79 CD69, CD25, and HLA-DR activation antigen expression on CD3+ lymphocytes and relationship to serum TNF-α, IFN-γ, and sIL-2R levels in aging

U. Ponnappan, G. U. Trebilcock and M.-Z. Zheng — 95 Studies into the effect of tyrosine phosphatase inhibitor phenylarsine oxide on NFκB activation in T lymphocytes during aging: Evidence for altered IκB-α phosphorylation and degradation

0531-5565/99/$ – see front matter © 1999 Elsevier Science Inc. All rights reserved.

E. J. Remarque, J. M. A. de Jong, R. J. van der Kuis, N. Masurel and G. J. Ligthart — 109 Dose-dependent antibody response to influenza H1N1 vaccine component in elderly nursing home patients

D. T. Yew, W. P. Li, S. E. Webb, H. W. L. Lai and L. Zhang — 117 Neurotransmitters, peptides, and neural cell adhesion molecules in the cortices of normal elderly humans and Alzheimer patients: A comparison

135 Announcement

Number 2

Mini-Reviews

A. Globerson — 137 Hematopoietic stem cells and aging

A. Musarò, N. Rosenthal — 147 Transgenic mouse models of muscle aging

Original Papers

É. Le Bourg, N. Minois — 157 A mild stress, hypergravity exposure, postpones behavioral aging in *Drosophila melanogaster*

K. A. Carlson, L.G. Harshman — 173 Extended longevity lines of *Drosophila melanogaster*: Abundance of yolk protein gene mRNA in fat body and ovary

D. Šešlija, D. Blagojević, M. Spasić, N. Tucić — 185 Activity of superoxide dismutase and catalase in the bean weevil (*Acanthoscelides obtectus*) selected for postponed senesence

T. Fülöp, Jr., D. Gagné, A.-C. Goulet, S. Desgeorges, G. Lacombe, M. Arcand, G. Dupuis — 197 Age-related impairment of $p56^{lck}$ and ZAP-70 activities in human T lymphocytes activated through the TcR/CD3 complex

B. Fernández-Gutiérrez, J.A. Jover, S. De Miguel, C. Hernández-García, M. T. Vidán, J. M. Ribera, A. Bañares, J. A. Serra — 217 Early lymphocyte activation in elderly humans: Impaired T and T-dependent B cell responses

A. Wakikawa, M. Utsuyama, A. Wakabayashi, M. Kitagawa, K. Hirokawa — 231 Age-related alteration of cytokine production profile by T cell subsets in mice: A flow cytometric study

S. C. Castle, K. Uyemura, W. Crawford, W. Wong, W. B. Klaustermeyer, T. Makinodan — 243 Age-related impaired proliferation of peripheral blood mononuclear cells is associated with an increase in both IL-10 and IL-12

F. Borrego, M. C. Alonso, M. D. Galiani, J. Carracedo, R. Ramirez, B. Ostos, J. Peña, R. Solana — 253 NK phenotypic markers and IL2 response in NK cells from elderly people

T. Shinkai, G. S. Roth 267 Mechanisms of age-related changes in gonadotropin-releasing hormone receptor messenger ribonucleic acid content in the anterior pituitary of male rats

G. Untergasser, H. Rumpold, M. Hermann, S. Dirnhofer, G. Jilg, P. Berger 275 Proliferative disorders of the aging human prostate: Involvement of protein hormones and their receptors

Image of Experimental Gerontology

H. Recheis, G. Böck, G. Wick 289 Paradoxical increase of LDL-R expression on the surface of lymphocytes from healthy old (>65a) SENIEUR protocol-compatible donors compared to healthy young (<35a) controls

Number 3

Mini-Review

B. T. Ashok, R. Ali 293 The aging paradox: free radical theory of aging

Reviews

H. Glossmann, G. Petrischor, G. Bartsch 305 Molecular mechanisms of the effects of sildenafil (VIAGRA®)

E. Le Bourg 319 A review of the effects of microgravity and of hypergravity on aging and longevity

Opinion

A. J. Bailey, L. Knott 337 Molecular changes in bone collagen in osteoporosis and osteoarthritis in the elderly

Original Papers

Y. Takubo, T. Hirai, S. Muro, K. Kogishi, M. Hosokawa, M. Mishima 353 Age-associated changes in elastin and collagen content and the proportion of types I and III collagen in the lungs of mice

S.B. Nayak, B.S. Jena, B.K. Patnaik 365 Effects of age and manganese (II) chloride on peroxidase activity of brain and liver of the teleost, *Channa punctatus*

V.V. Davydov, V.N. Shvets 375 Differential changes in the properties of mitochondrial isoenzyme creatine kinase from heart of adult and old rats during stress

H. Okamura, M. Yamaguchi, Y. Abiko 379 Enhancement of lipopolysaccharide-stimulated PGE2 and IL-1β production in gingival fibroblast cells from old rats

J. Desrosiers, R. Hébert, G. Bravo, A. Rochette 393 Age-related changes in upper extremity performance of elderly people: A longitudinal study

B. Grubeck-Loebenstein, G. Wick 407 Proceedings of a Symposium on "Immunosenescence—A major cause of disease in the elderly: from molecules to patients" Summary

M.G. Pasterk 413 Aging Research within the 5th EC Research Framework Programme

G. Pawelec, W. Wagner, M. Adibzadeh, A. Engel 419 T cell immunosenescence in vitro and in vivo

P. Szabo, S. Shen, M.E. Weksler 431 Age-associated defects in B lymphocyte development

R. Solana, M.C. Alonso, J. Peña 435 Natural killer cells in healthy aging

E.J. Remarque 445 Influenza vaccination in elderly people

P. Eikelenboom, R. Veerhuis 453 The importance of inflammatory mechanisms for the development of Alzheimer's disease

C.P. Mavragani, H.M. Moutsopoulos 463 Rheumatoid arthritis in the elderly

473 Book reviews

Number 4

Special Issue
Atherosclerosis: An Age-Related Disease

Editorial

Georg Wick, Qingbo Xu 481 Atherosclerosis is a paradigmatic disease of the elderly, the roots of which are laid in youth, whereas the clinically manifested consequences become evident at old age

Aaron R. Folsom 483 "New" risk factors for atherosclerotic diseases

L. Robert 491 Aging of the vascular-wall and atherosclerosis

Reviews

Jesús Marín, M. Angeles Rodríguez-Martínez 503 Age-related changes in vascular responses

Michael J. Barnes, Richard W. Farndale 513 Collagens and atherosclerosis

Peter D. Reaven, Claudio Napoli, Shiva Merat, Joseph L. Witztum 527 Lipoprotein modification and atherosclerosis in aging

She Mingpeng, Wang Zongli 539 The protective role of high-density lipoproteins in atherosclerosis

Martha S. Lundberg, Michael T. Crow 549 Age-related changes in the signaling and function of vascular smooth muscle cells

Georg Wick, Qingbo Xu 559 Atherosclerosis—An autoimmune disease

Mikko P. Turunen, Mikko O. Hiltunen, Seppo Ylä-Herttuala 567 Gene therapy for angiogenesis, restenosis and related diseases

575 Announcement

Number 5

Mini-Review

Michael R. Rose 577 Genetics of aging in *Drosophila*

Perspective

M. M. Miller, K. B. J. Franklin 587 Theoretical basis for the benefit of postmenopausal estrogen substitution

Controversy on The Mitochondrial Theory of Aging

Axel Kowald 605 Controversy on the mitochondrial theory of aging Do damaged mitochondria accumulate by delayed degradation?

David Gershon 613 Controversy on the mitochondrial theory of aging Is the culprit a faulty disposal system rather than indigenous mitochondrial alterations?

Original Papers

J. R. Fernández, M. D. Grant, N. M. Tulli, L. M. Karkowski, G. E. McClearn 621 Differences in locomotor activity across the lifespan of *Drosophila melanogaster*

Carolyn Spaulding, Wei Guo, Rita B. Effros 633 Resistance to apoptosis in human CD8+ T cells that reach replicative senescence after multiple rounds of antigen-specific proliferation

Daniela Frasca, Paola Barattini, Donatella Tirindelli, Luisa Guidi, Carlo Bartoloni, Andrea Errani, Mario Costanzo, Augusto Tricerri, Luca Pierelli, Gino Doria 645 Effect of age on DNA binding of the ku protein in irradiated human peripheral blood mononuclear cells (PBMC)

Marcella Potestio, Graham Pawelec, Gabriele Di Lorenzo, Giuseppina Candore, Claudia D'Anna, Francesco Gervasi, Domenico Lio, Giovanna Tranchida, Calogero Caruso, Giuseppina Colonna Romano 659 Age-related changes in the expression of CD95 (APO1/FAS) on blood lymphocytes

M. D. Ferrández, R. Correa, M. Del Río, and M. De la Fuente 675 Effects in vitro of several antioxidants on the natural killer function of aging mice

MICHIO HASHIMOTO, SHAHDAT HOSSAIN, SUMIO MASUMURA 687 Effect of aging on plasma membrane fluidity of rat aortic endothelial cells

GOHAR AZHAR, WEI GAO, LIXIN LIU, JEANNE Y. WEI 699 Ischemia-reperfusion in the adult mouse heart Influence of age

Images of Experimental Gerontology

CHIARA MONDELLO, DANIELA MORALLI, CLAUDIO FRANCESCHI, FIORELLA NUZZO 715 Occurrence and expansion of trisomy 7 in a fibroblast strain from a centenarian individual

Number 6

Mini-Reviews

ROBERT M. SAPOLSKY 721 Glucocorticoids, stress, and their adverse neurological effects: relevance to aging

A. MAILLOUX, C. BENSTAALI, A. BOGDAN, A. AUZÉBY, Y. TOUITOU 733 Body temperature and locomotor activity as marker rhythms of aging of the circadian system in rodents

Articles

EMMY P. ROGAKOU, KALLIOPE E. SEKERI–PATARYAS 741 Histone variants of H2A and H3 families are regulated during in vitro aging in the same manner as during differentiation

ALEXEI TERMAN, NICKLAS ABRAHAMSSON, ULF T. BRUNK 755 Ceroid/Lipofuscin-loaded human fibroblasts show increased susceptibility to oxidative stress

A. BEGEGA, M. CUESTA, L.J. SANTÍN, S. RUBIO, A. ASTUDILLO, J.L. ARIAS 771 Unbiased estimation of the total number of nervous cells and volume of medical mammillary nucleus in humans

F. MARX, I. BLASKO, K. ZISTERER, B. GRUBECK–LOEBENSTEIN 783 Transfected human B cells: a new model to study the functional and immunostimulatory consequences of APP production

BARBARA SHUKITT–HALE, DONALD E. SMITH, MOHSEN MEYDANI, JAMES A. JOSEPH 797 The effects of dietary antioxidants on psychomotor performance in aged mice

ADALSTEINN GUDMUNDSSON, BRIAN GOODMAN, STEPHANIE LENT, STEVEN BARCZI, ANA GRACE, LISA BOYLE, WILLIAM B. ERSHLER, MOLLY CARNES 809 Effects of estrogen replacement therapy on the circadian rhythms of serum cortisol and body temperature in postmenopausal women

Book reviews

ARUN K. ROY 819 Functional endocrinology of aging

ARUN K. ROY 820 A Means to an End

XX Instructions to Author

Number 7

Articles

I. Blumenfeld, E. Livne — 821 The role of transforming growth factor (TGF)-β, insulin-like growth factor (IGF)-1, and interleukin (IL)-1 in osteoarthritis and aging of joints

Zheng Tan — 831 Telomere shortening and the population size-dependency of life span of human cell culture: further implication for two proliferation-restricting telomeres

Atsuko Wakikawa, Masanori Utsuyama, Ayako Wakabayashi, Masanobu Kitagawa, Katsuiku Hirokawa — 853 Vitamin E enhances the immune functions of young but not old mice under restraint stress

Caterina A. M. La Porta, Roberto Comolli — 863 Age-dependent modulation of PKC isoforms and NOS activity and expression in rat cortex, striatum, and hippocampus

Pasquale Abete, Angelo Cioppa, Claudio Calabrese, Imma Pascucci, Francesco Cacciatore, Claudio Napoli, Vincenzo Carnovale, Nicola Ferrara, Franco Rengo — 875 Ischemic threshold and myocardial stunning in the aging heart

Short communications

V. V. Davydov, V. N. Shvets — 885 Different changes in the cytosole creatine kinase isoenzymes from heart of adult and old rats during stress

Eiko Koike, Takahiro Kobayashi, Katsumi Mochitate, Masataka Murakami — 889 Effect of aging on nitric oxide production by rat alveolar macrophages

Images in experimental gerontology

Reinhard Nestelbacher, Peter Laun, Michael Breitenbach — 895 A senescent yeast mother cell

Book reviews

Samuel Ward — 897 Molecular Biology of Aging

899 Announcement

900 Announcement

Number 8

Mini-Review

Heinz D. Osiewacz, Erik Kimpel 901 Mitochondrial-nuclear interactions and lifespan control in fungi

Reviews

Claudio Franceschi, Silvana Valensin, Francesco Fagnoni, Cristiana Barbi, Massimiliano Bonafè 911 Biomarkers of immunosenescence within an evolutionary perspective: the challenge of heterogeneity and the role of antigenic load

Martin Hermann, Peter Berger 923 Hormone replacement in the aging male?

Articles

Lan Wang, Arom E. Evans, Charles E. Ogburn, Hagop Youssoufian, George M. Martin, Junko Oshima 935 Werner helicase expression in human fetal and adult aortas

Alexei Terman, Helge Dalen, Ulf T. Brunk 943 Ceroid/lipofuscin-loaded human fibroblasts show decreased survival time and diminished autophagocytosis during amino acid starvation

Hoss M. Sadeghi, Jack F. Schnelle, John K. Thomas, Parunag Nishanian, John L. Fahey 959 Phenotypic and functional characteristics of circulating monocytes of elderly persons

Radmila Djordjevic–Markovic, Olga Radic, Verica Jelic, Marija Radojicic, Vesna Rapic–Otrin, Sabera Ruzdijic, Marija Krstic–Demonacos, Selma Kanazir, Dusan Kanazir 971 Glucocorticoid receptors in ageing rats

Gabriela Andrea Balogh, Ana Russo de Boland 983 1,25-Dihydroxy-vitamin D_3 (calcitriol)-dependent protein phosphorylation in rat duodenum: effects of ageing

Lawrence G. Harshman 997 Investigation of the endocrine system in extended longevity lines of *Drosophila melanogaster*

Martine Clozel, Patrick Hess, Walter Fischli, Bernd–Michael Löffler, Ralf M. Zwacka, Alexander Reuter, Hans Weibel 1007 Age-dependent hypertension in Mpv17-deficient mice, a transgenic model of glomerulosclerosis and inner ear disease

Book review
